

A. Install LabSim from the Internet

1. Click the following link if LabSim has not already been installed on your computer:
<http://www.testout.com/support/download/LabSimOnlineSetup.exe>
2. Select “Run” to install immediately.
3. The install wizard will guide you through the installation process.

B. Create a LabSim Account

1. Launch LabSim by selecting its icon from your desktop or from the Programs menu.
2. When the Login screen appears, click “Create an Account.”
3. Select your country, and enter your desired login and password and your first and last name.
4. Enter your activation code
5. Click “Create.”

Note: If you have more than one activation code, you will enter your additional codes after logging in to LabSim.

C. Log In

1. Launch LabSim.
2. When the Login screen appears, enter your login ID and password.
3. Click “Login.”

D. Activate Additional LabSim Courses

The LabSim courses available to you are controlled by the license activations that have been added to your account. You entered one activation code when you created your account. To activate additional courses:

1. From your LabSim account home screen, click “Add a LabSim.”
2. Enter your activation code.
3. Click “Activate.”

E. Associate Your Student Account with a Campus and a Class

For your instructor to view your progress, your account must be associated with your campus and class.

1. Launch LabSim.
2. Click “Join a School or Company” in the upper right corner of your LabSim home screen.
3. Enter part or all of your school’s name in the “Search String” field, and click “Find Account.”
4. Find your campus in the search results, and click “Join to this Campus as a Student.”
5. After you’ve joined the campus, enroll in your class by clicking “Enroll in Classes” in the upper right corner of your LabSim home screen.
6. Find your instructor’s class listed in the “Available Classes” list, and click “Enroll.”
